

MSHP Program

FRIDAY June 15

(0.2 CEU)

3:00-4:00pm Registration & Exhibitors

4:00-4:50pm

Jim Mathis
MS, Clinical Pharmacy Specialist,
Lipid Management, Veteran's Hospital, Togus Maine

Collaborative Practice – A Pharmacist Managed Anticoagulation Clinic

1.0 contact hour (0.1 CEU) ACP# 060-999-07-012-L01

Learning Objectives:

- At the conclusion of this educational presentation, participants will be able to:
- Compare the outcomes of a Pharmacist Managed Anticoagulation Clinic to that of traditional Physician managed anticoagulation
 - Learn where Pharmacists can obtain training in anticoagulation management
 - Describe the steps involved for a specially trained Pharmacist to establish an anticoagulation collaborative practice within their institution
 - Recognize the more clinically significant drug-drug interactions, food-drug interactions, and disease states that affect Lab INR's
 - Discuss situations when it is necessary to interrupt oral anticoagulation and institute "bridge" therapy with LMW heparins

5:00-5:50pm

Anne VanHaaren

Pharm D, CDOE,
Director Pharmacy Care Management Program Coastal Medical, Inc.
Clinical Assistant Professor of Pharmacy-URI College of Pharmacy

Diabetes Collaborative Practice – Teamwork in Action

1.0 contact hour (0.1 CEU) ACP# 060-999-07-013-L01

Learning Objectives:

- At the conclusion of this educational presentation, participants will be able to:
- Review the collaborative pharmacy practice regulations in Rhode Island.
 - Explain the development of the collaborative practice at Coastal Medical, Inc.
 - Outline the impact of collaborative practice on diabetic patient outcomes

6:00-7:00pm

Social Hour

7:00pm

Downeast Lobster Bake
Optional.
GUESTS welcome.

SATURDAY June 16

(0.4 CEU)

7:15-8:15am MSHP Board Meeting

7:30-8:30am Registration & Exhibitors

8:30-9:20am

Ellen Kenny
Pharm.D., CGP, FASCP Clinical Pharmacy Specialist,
Lipid Management, Veteran's Hospital, Togus Maine

An Example of Collaborative Practice in a Pharmacist Run Lipid Clinic

1.0 contact hour (0.1 CEU) ACP# 060-999-07-014-L01

Learning Objectives:

- At the conclusion of this educational presentation, participants will be able to:
- Describe the role of the pharmacist in lipid management
 - Consider options for certification in lipid management
 - Describe current issues in lipid management such as:
 - optimum LDL goals for different classes of patients
 - managing elevated lab results such as transaminases and CPK
 - combining two or more lipid-lowering agents from different classes to improve results without compromising safety
 - the role of herbal and nutritional supplements in lipid management
 - Discuss data demonstrating the benefit of pharmaceutical care in lipid management
 - List possible steps to take in establishing a pharmacy-run outpatient lipid clinic

9:30-10:30am

EMMC Protocols for High Risk Patients

1.0 contact hour (0.1 CEU) ACP# 060-999-07-015-L01

Jamie Cronin

Pharm D., AEC, Clinical Coordinator of Pharmacy Services,
Clinical Specialist Pediatric and Neonatal ICU,
and Asthma Educator at Eastern Maine Medical Center, Bangor, Maine

Technician Role in Vaccinating High-Risk Patients with Influenza and Pneumococcal Vaccines at EMMC

Learning Objectives:

- At the conclusion of this educational presentation, participants will be able to:
- Identify the need for immunization of high-risk adult patients
 - Give an overview of the mechanics of our program
 - Demonstrate how a technician can be an effective member of the health-care team in educating and screening patients for vaccination.
 - Give an overview of how computerization of screening and administration records is a necessary component of the process of documentation.

Sarah Melanson

Pharm.D., Pharmacy Resident., Eastern Maine Medical Center, Bangor, Maine
Implementation of a Protocol to De-escalate Antibiotic Therapy in Patients with Hospital-Acquired, Ventilator Associated and Healthcare-Associated Pneumonias

Learning Objectives:

At the conclusion of this educational presentation, participants will be able to:

- To differentiate between hospital-acquired, ventilator-associated and healthcare-associated pneumonias.
- To describe the 2005 American Thoracic Society/ Infectious Disease Society of America's guidelines with an emphasis on antimicrobial agent selection
- To identify the principles of antibiotic de-escalation and its implications on patient care
- To review a protocol developed at Eastern Maine Medical Center for hospital-acquired, ventilator-associated and healthcare associated pneumonias, and monitoring with pre- and post-protocol implementation data.

10:30-11:00am

Break & Exhibitors

11:00-12:50pm

Preparing for the Future: Is Clinical Pharmacy Practice Ready for Tomorrow's Healthcare Model?

2.0 contact hours (0.2 CEUs) ACP# 060-999-07-016-L04

Learning Objectives:

- At the conclusion of this educational presentation, participants will be able to:
- Identify cultural gaps that may prevent clinical pharmacy from moving forward.
 - Identify strategies that can help train students/residents for tomorrow's healthcare environment
 - Identify and explain alternative methods of financial compensation for pharmacists
 - Identify strategies to move beyond the "organizational freeze: that often prevents progress in institutions and organizations
